

CHURCH CEMETERY WORKSHOP
OCTOBER 26, THURSDAY
6:30 TO 8:30 PM

New Covenant Presbyterian Church
240 Creek Road, Mt. Laurel, NJ 08054

Paul Grier, Vice President, Project Regeneration, Presbyterian Foundation

Long ago when the church was the center of the community so was the church cemetery. Many of our congregations have old historic cemeteries that need lawncare, landscaping, monument maintenance and other structure care. Many are still “active” cemeteries

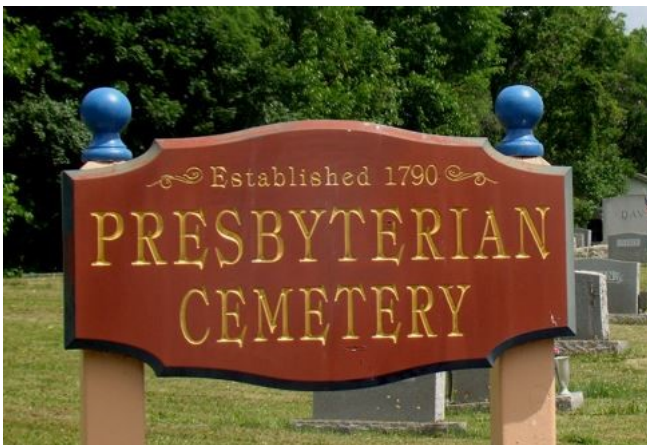

GOT QUESTIONS? INFORMATION CONFUSING?

What do we do about our cemeteries moving into the future? What is required by New Jersey State Law? What are the rules and laws about cemetery funds and bequests? Should there be a cemetery association or a congregational committee? What should be our policy? Can we change our outdated policy?

CONSULTATIONS

Paul will be available following the workshop for brief consultations with your team on specific topics of concern about your church cemetery issues and questions.

REGISTRATION

Registration is highly recommended

Please indicate when you register if you wish to schedule a consultation
